A TIMELESS TAKE

ON ALTERNATIVE ROCK

BIOGRAPHY

Lost//Youth is an Alt/Rock band known for their ability to blend the raw energy of 90s rock with the classic sound of the 70s. Drawing from nostalgic influences while incorporating modern pop and urban sensibilities, they have crafted a dynamic and distinctive sound that feels both timeless and ever-evolving.

With powerful performances and a growing fan base, Lost//Youth is quickly becoming a force to be reckoned with in the South African music scene.

The Cape Town based band is set to release their highly anticipated second EP later this year. This body of work acts as the second chapter in their two-part project exploring the concepts of light and dark.
